EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following changes have been made in the subject of the application to put the claims in a condition for allowance.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Scott Menglin.

Specification

- line 9 of page 1, inserted -10/602353--.

REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance:

The applicant's amendment filed 6/4/04 overcomes the technical deficiencies and the prior art rejection. Claims 1-3, 5-16 and 18-20 are allowed because the prior art of record does not show the RC polyphase network having an inductor for bandpass filtering the first output and second output which is an offset in phase by 90 degrees from the first output. In particular, the polyphase network of Christensen (US 6,696,885) is not the RC polyphase network and the inductors (27, 29) does not provide the bandpass filtering function.

CONCLUSION

Any comments considered necessarily by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue
